# GW ENGAGE

Searching for an Event to Attend

Engage is the online student organization management platform at GW. All GW students are already in the system- you'll simply need to log on at go.gwu.edu/gwengage. Use your (netid)@gwu.edu email and associated password. If you can encounter any difficulties, please contact us at orghelp@gwu.edu.

Searching for events to attend is simple in Engage! First you'll want to log in to GW Engage, this will allow you to see a full list of events. On your log in page, you will see upcoming public events from organizations across campus as well as a section for events for which you have personally RSVP'd.

To see a complete list of events, click on the *Events* tab on the top of your screen. By default, the current week's events will be displayed, but you can click on any date on the calendar on the left side of the page to jump to a different week.

To view events more specific to your interests, you can also filter by categories, themes and perks to narrow down your search. *Event Categories* are created specifically for your campus and allow you to search for events that fall under a certain area of interest you might hold. *Themes* are more general, such as Arts, Learning, Social, or Cultural. Filtering by *Perks* allows you to see events that have free food, free stuff, or the option to receive class credit.

Clicking on the name of event will take you to the event's details where you can see the date, time, location and additional information about the event and RSVP.
